

# CASPER COMMUNITY GREENHOUSE PROJECT

PO Box 50465, Casper WY 82605

307-277-7303

To Whom it May Concern:

Thank you for taking the time to consider our project. We are the Casper Community Greenhouse Project (a non-profit organization) whose ultimate mission is to build greenhouses in a way that fosters and educates its community about health, nutrition, and agriculture. Our aim is to build, develop and operate a local destination designed to promote urban and rural agriculture and the health and well-being of the community. We currently have two full greenhouses at Journey and Evansville elementary schools. The project we are about to undertake "Grow Casper" will be to operate a nonprofit, charitable organization which will build an in-city farm to provide, educational community teaching gardens, greenhouses, fields and orchards, and to grow and provide healthy local foods to the community and cafeterias, incubate agriculture and create community respite and wellbeing with our edible landscape. It is the intent of this project to educate kids and adults, (where and how their food is grown), partner with the agriculture departments and other groups in a combined effort to encourage continued agricultural business' and provide access to local nutritious fresh foods.

We have partnered with the Wyoming Medical Center on a 5.83-acre piece of land on the eastside where we intend to build a community urban farm where we will dedicate our growing, teaching and community engagement to a wellness motive. The project has begun and as we continue to apply for large grants and other funding, we are continuing our fundraising efforts with naming sponsorships. We are a **501c3 (46-0968958)** Charitable Organization and your donation is tax-deductible. Please consider becoming a part of this amazing project.

We appreciate your consideration and look forward to your sponsorship of our project. Should you have any questions, please do not hesitate to contact me at the above.

Sincerely,

*LeAnn Miller*

LeAnn Miller

Executive Director, Casper Community Greenhouse Project
